Črnomelj, 10th November 2022

You are invited to join the international video project:

2023

The organizer, coordinator and contractor of the project is the Elementary School  
Milke Šobar - Nataše, Črnomelj.

The project will be carried out among Slovenian schools and institutions for **children and youth with special needs** and similar institutions abroad.

The participants will have to make a **two to three minute music video**.

The **common theme of this year's videos is the FRIEND**.

Cooperation with **other schools, kindergartens and other similar institutions is welcomed**.

#### THE PROJECT IN SHORT

*Each participant is acquired to make a short music video. In doing so, their students should cooperate as much as possible in all phases of production: the selection of ideas and music, preparing sets and acting, recording and editing. The videos will compete for the first three places by collecting votes within the participating institutions, through the Internet voting site accessible to the general public, and voting of the jury. By presenting the videos to the public, we hope to raise the awareness of the abilities and creativity of persons with special needs.*

As traditionally, the project will be completed with the announcing of the best videos, at the **final event, on 25th Maj 2023 in Semič (Slovenia)**. The event will take place simultaneously as the festival Play With Me. Visitors will be able to watch the videos and enjoy the final event as well as take part in the many sports and crafts workshops.

A detailed description of the project and the application form is attached. More info about the project on <http://sfactor.splet.arnes.si/s-factor/>.

**Application form is available on the school's website [www.osmsn.si](http://www.osmsn.si), and is due December 1st, 2022.**

Matjaz Baric, head-teacher
